OBJECTIVE

Results-driven Software Engineer - Backend with over **2.5+ years** of experience specializing in **Java, Spring Boot, and scalable system design**. Skilled in developing efficient backend solutions, optimizing performance, and implementing high-availability microservices with a passion for distributed systems and clean architecture.

SKILLS

Languages/Frameworks Java, Spring Boot, Hibernate, RESTful APIs, Kafka, Microservices

Database PostgreSQL, Redis, Oracle DB

Tools/Tech Elasticsearch, Logstash, Kibana, Docker, Kubernetes, Swagger

Concepts System Design, Multithreading, OOP, CI/CD, DevOps, Logging

Frontend React, JavaScript, HTML, CSS

Soft Skills Problem Solving, Communication, Team Collaboration

WORK EXPERIENCE

Software Developer

Oct 2022 - Present

Velocis System Pvt. Ltd, Noida

- Engineered scalable backend APIs using Java and Spring Boot, achieving **40% performance improvement**.
- Designed event-driven microservices using **Kafka** for asynchronous processing and optimized workflows.
- Integrated **Redis** for distributed caching, enhancing system scalability and reducing latency.
- Implemented robust authentication and authorization, decreasing security incidents by **25%**.
- Deployed real-time monitoring with **ELK Stack**, improving issue resolution speed.
- Spearheaded development of **Velocis Digital Framework (VDF)**, a CMS enabling low-code/no-code site creation and version-managed publishing.

PROJECTS

- Velocis Digital Framework (VDF)** — Java, Spring Boot, Hibernate, PostgreSQL, Kafka, Swagger
Developed a CMS with low-code/no-code orchestration for site/page/component creation. Integrated version management and publishing logic with API-first design.
- ITMS - Integrated Terminal Management System** — Java, Spring Microservices, Oracle DB, Redis
Built scalable microservices to optimize logistics and warehousing for CONCOR, improving data throughput using Redis caching.
- Minor Irrigation Census 7** — Spring Boot, Hibernate, REST APIs, Thymeleaf
Designed secure data entry web application for government irrigation census using Spring ecosystem and MVC architecture.
- Velocis Blog Portal** — Java, Liferay, MySQL
Developed a dynamic blog platform with advanced search, rating, and content sorting features to boost engagement.

EDUCATION

Bachelor's in Computer, MGCGV University

2018 - 2021

Intermediate, Sadguru Public School

2016 - 2018
